

# Linked Sections

When a student is required to register for a Lecture and Discussion/Lab. Use linking when there are multiple Discussion/Labs for the student to choose from. You can only link sections under the same Subject and Number. If there is only one Discussion/Lab option for the student, use Packaging (PKG or ONL). The section IDs should correspond to the Link IDs for easier reference for you and for students.

Let FMS walk you through this the first time!

# Linked Sections Continued

With linking, students will register for multiple CRNs, but only one has credit/billing and receives the grade.

Consider who will be assigning grades: the LEC instructor, or all the DIS/LAB/etc instructors?

CRNs that will receive the grade will have credit/billing and the “gradable” box checked:
