

# Section Enrollment Information [SSASECT]

## Maximum Enrollment

- Total number of students that the system will allow to register.

## Actual Enrollment

- The number of students that are currently registered.

## Projected Enrollment

- Total number of students you wish to have in the class. Should not exceed room capacity.
- Not always the same as Max Enrollment.
  - If you are slowly releasing seats during registration, you know not to go over the projected enrollment number since it should not exceed the **room capacity**.
- This number is used by FMS to determine the room size that is needed.

## Please note

- Using reserved seats is strongly discouraged
- The waitlist feature is non-functioning

The screenshot displays the 'Section Enrollment Information' tab for a course section. The course is 'Statistics and Probability I' (STAT 400) in the term 120188. The enrollment details table shows a maximum enrollment of 179, with 169 actual students and 10 remaining seats. The projected enrollment is 200, with 168 prior students. The waitlist is currently empty. The interface also shows generated credit hours of 676.000 and two census dates: 08/27/2018 and 09/10/2018. A 'Start Over' button is visible in the top right, and a 'SAVE' button is at the bottom right.
