

Guide for Dropping or Withdrawing From Nonstandard Length Course Sections

The information below pertains to course sections that are not offered in any of the standard University parts of term such as POT 1 (full semester), POT A (first 8 weeks), POT B (second 8 weeks) etc. which have established refund and withdrawal schedules. Such course sections are referred to as **NONSTANDARD**. Nonstandard sections will not have a Part of Term listed in the Class Schedule. Day counts represent calendar days, not just workweek days and are based upon the published start date of the section.

If Dropping means dropping one or more nonstandard courses while remaining enrolled in at least one course during the spring, summer or fall semester.

If Withdrawing means dropping **ALL** courses for the semester after the first day of instruction. If you are only enrolled in 1 course, then dropping that course requires withdrawal. Refund percentages below refer to each nonstandard course section based on the start and withdrawal dates.
